December Program Coordinator: Diane Whitaker

December 17 - 5:15pm Home of Betty Schantz – wrap Christmas gifts for our Christmas family

There was lots of camaraderie in the wrapping of the gifts for our Christmas Family of Mother, and children ages 7, 5 and 2. I was at a meeting Dec 20 and a spokesman said that they were overwhelmed with community spirit from groups and organizations who are giving their patrons a very, merry Christmas. I think we did a very good job in this category.

Thanks also go to member Rotarian, Betty Schantz for fellowship in providing a meal for all members and guests. This was a delightful way to end the calendar year's meetings.

December 24 – Meeting Canceled Have a great Christmas holiday

Upcoming District Events:

- April 25-27, 2014 District 7360 Conference Breinigsville PA

Bottom Line: Mothers play a fundamental role in every culture. But depending on where a mom and baby live, what is their chance of living or dying, suffering or thriving?

Answer: In sub-Saharan Africa, one in 39 women will die of pregnancy-related complications, and one in nine children will die before age five. (In developed countries, the likelihood of dying drops to one in 4,700 women and one in 167 children.) Globally, 19,000 children die every day. The Rotary Foundation is working to improve maternal and child health around the world.

Our photo essay explores the Rotary projects that are saving new mothers and their children. Learn more about the challenges facing new mothers in the December 2013 issue of The Rotarian. www.rotary.org

Next Week's Question? How do you say Happy New Year in Rotarian?

Answer in the next "The Downtowner!"
