**Since light travels faster than sound, some people appear bright until you hear them speak.**

**Bottom Line:** What is one example of how Rotarians are working to improve sanitation and access to clean water?

**Answer:** Rotarians in Mozambique recently provided a water tank and bathroom facilities for a primary school outside Maputo. It's just one example of how Rotarians are working to improve sanitation and access to clean water. For more information visit [www.rotary.org](http://www.rotary.org)
